“ Gold award winning organic juices from deepest Devon. Farm pressed using whole Organic apples, approx 5lb per 75cl bottle. No added sugar, waters or preservatives, just pure organic fruit. Nothing else. . . ”

## Heron Valley Organic Juices and Cider

Heron Valley Organic is a family run business and has been making organic juices and cider for nearly 20 years. We use no waters, concentrates or additives, just pure organic fruit, hand selected and pressed on our family farm in deepest South Devon.

Heron Valley has won a raft of national awards including gold and double gold at The Great Taste Awards 2007 and highly commended at The Soil Association Organic Food Awards.

Our juice is made using hand selected eating apples, many from ancient Devon orchards and pressed in a small traditional hydraulic press. The apple skin or 'pummice' is then fed to our herd of organic South Devon cattle, and we are actively planting new orchards with indigenous and often rare varieties of eating and cider apples. Every 75cl bottle of Heron Valley juice contains approx 5 lb of whole apples, a smidge of vitamin C and nothing else. . .

Our Fiery Organic Ginger Beer and Organic Lime and Ginger Fizz are made by hand using entirely natural ingredients; Organic Sri Lankan Root Ginger, Organic Limes and Lemons, Organic Cane Sugar and Sparkling Devon water.

**Heron Valley Organic – the Fruit, the whole Fruit and nothing but the Fruit.**
